The logo can be used in the following three variations: the classic logo with the white puma and font on a black background, inverted colours or the third option with the black puma and font on a beige background.

LOGOVARIATION

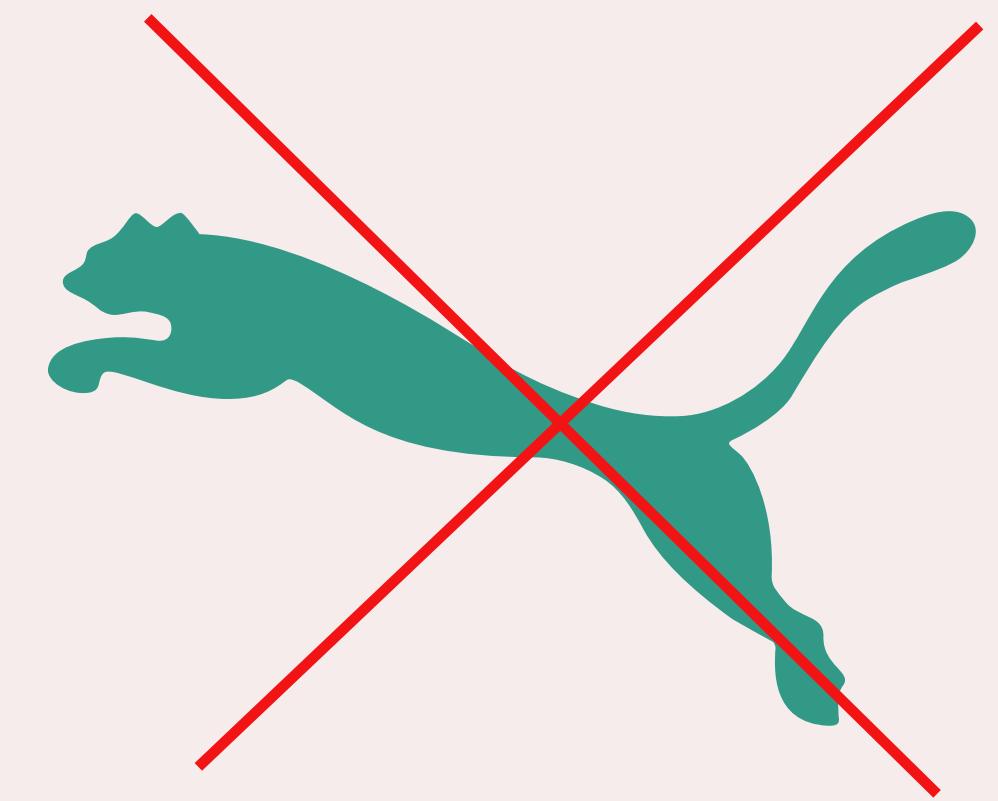

The PUMA can be used on its own for promotional use and on the products. The puma is associated with the brand, however, it is important to consider where and how the puma is placed.

LOGO COLORS

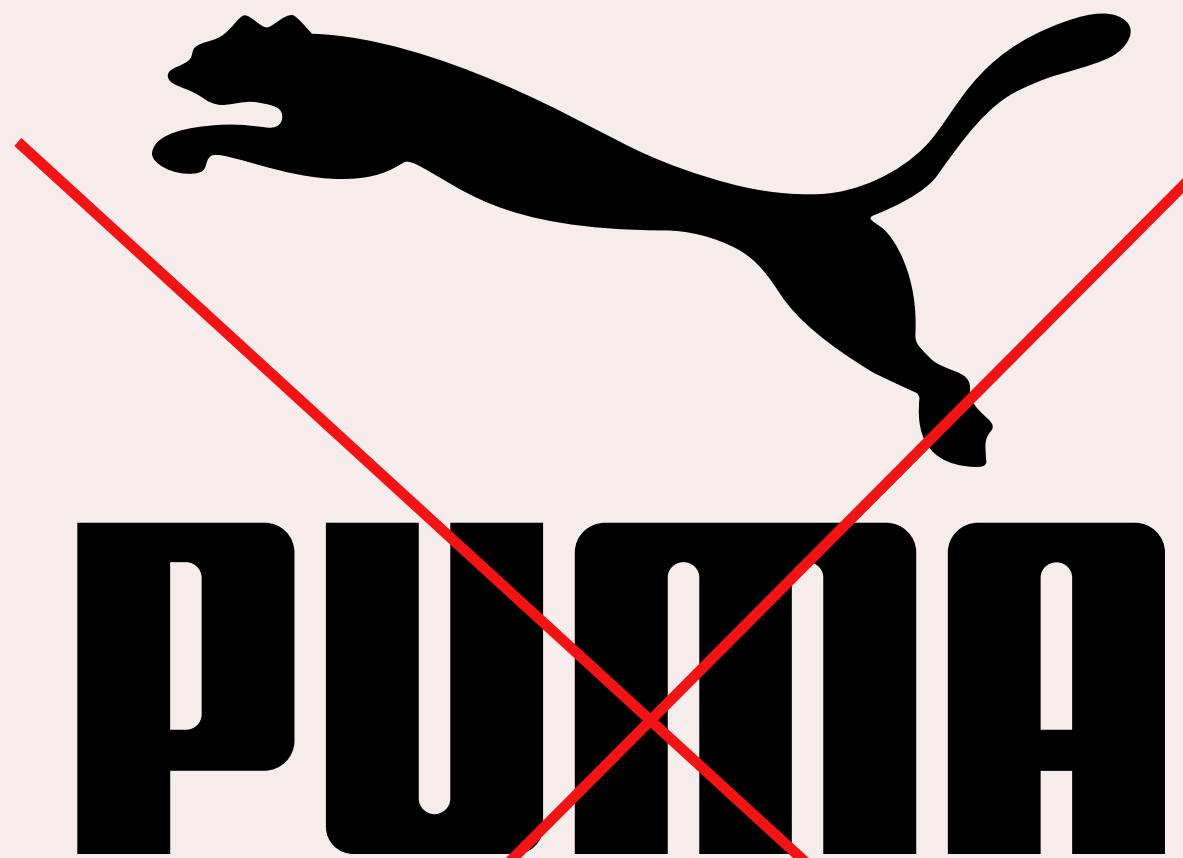

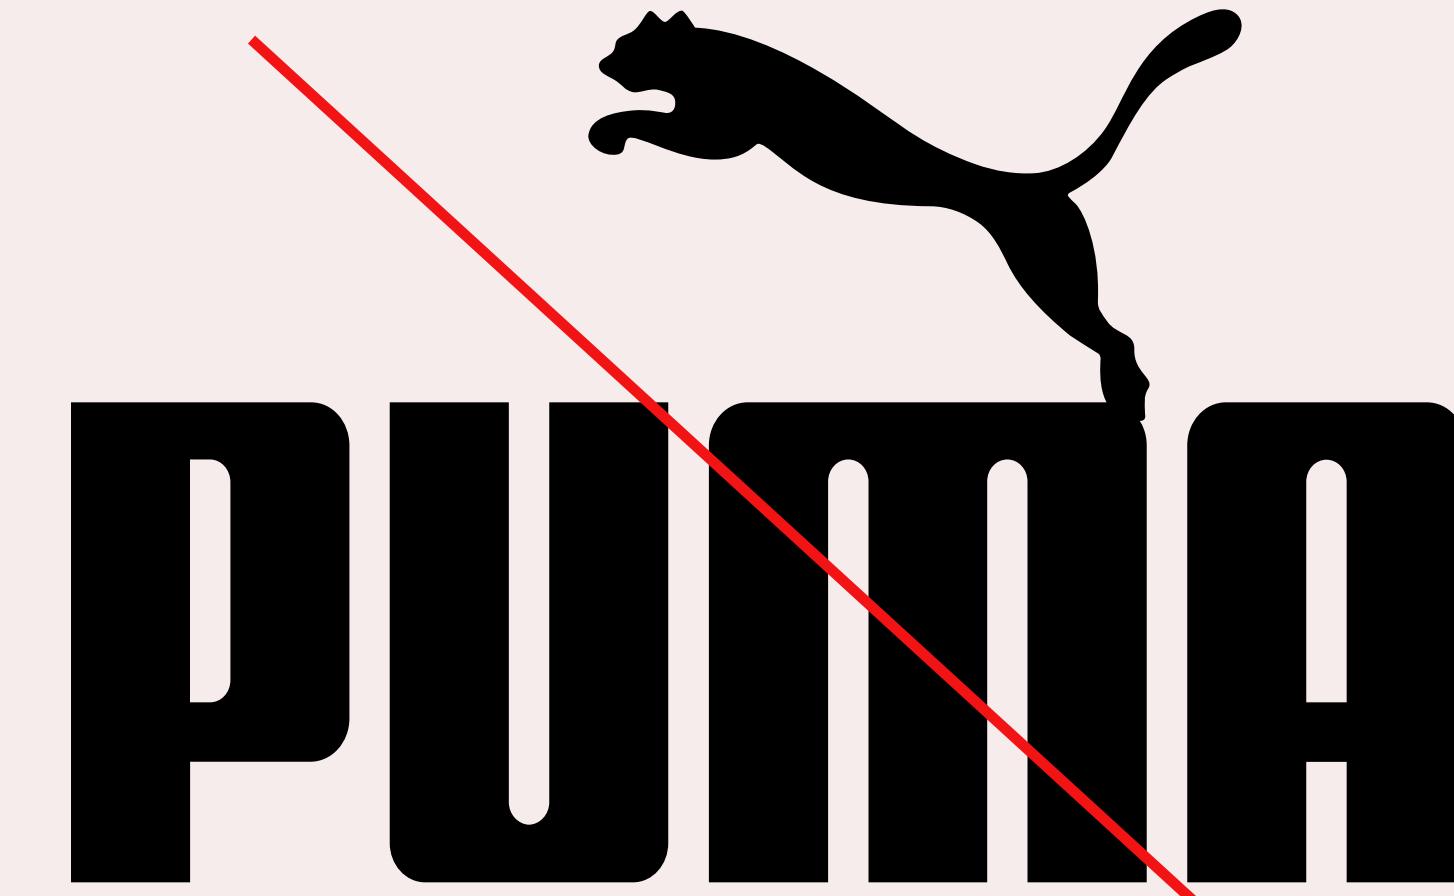

The logo colors must always follow the above guidelines. The background color of the logo cannot be changed and the color of the font and puma cannot be changed either. The same goes for the simple puma logo. A background cannot be added and the color of the puma cannot be changed.

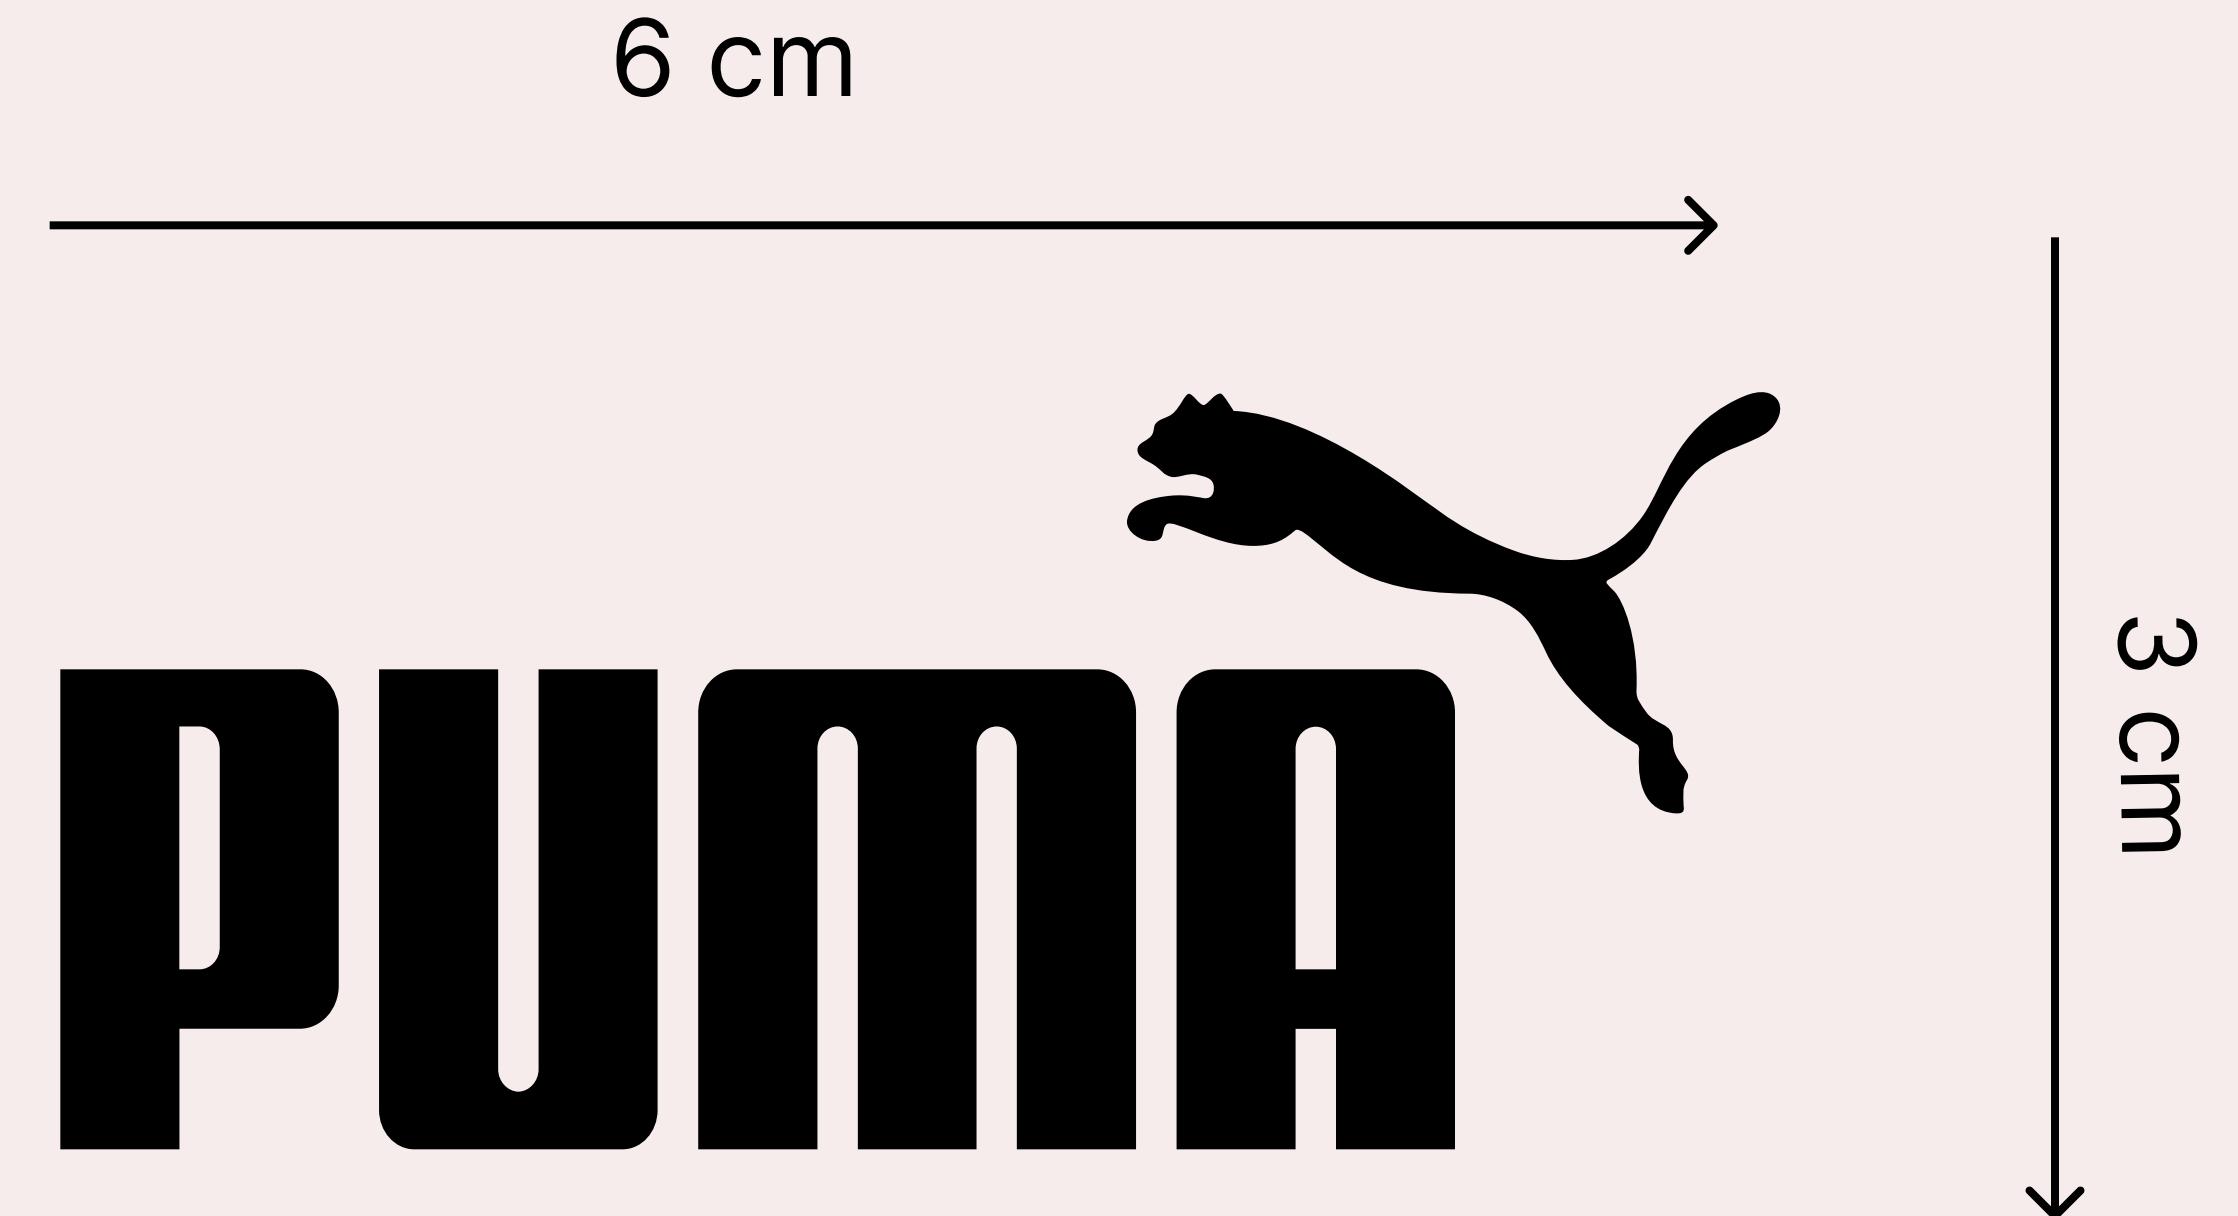

LOGO SIZE

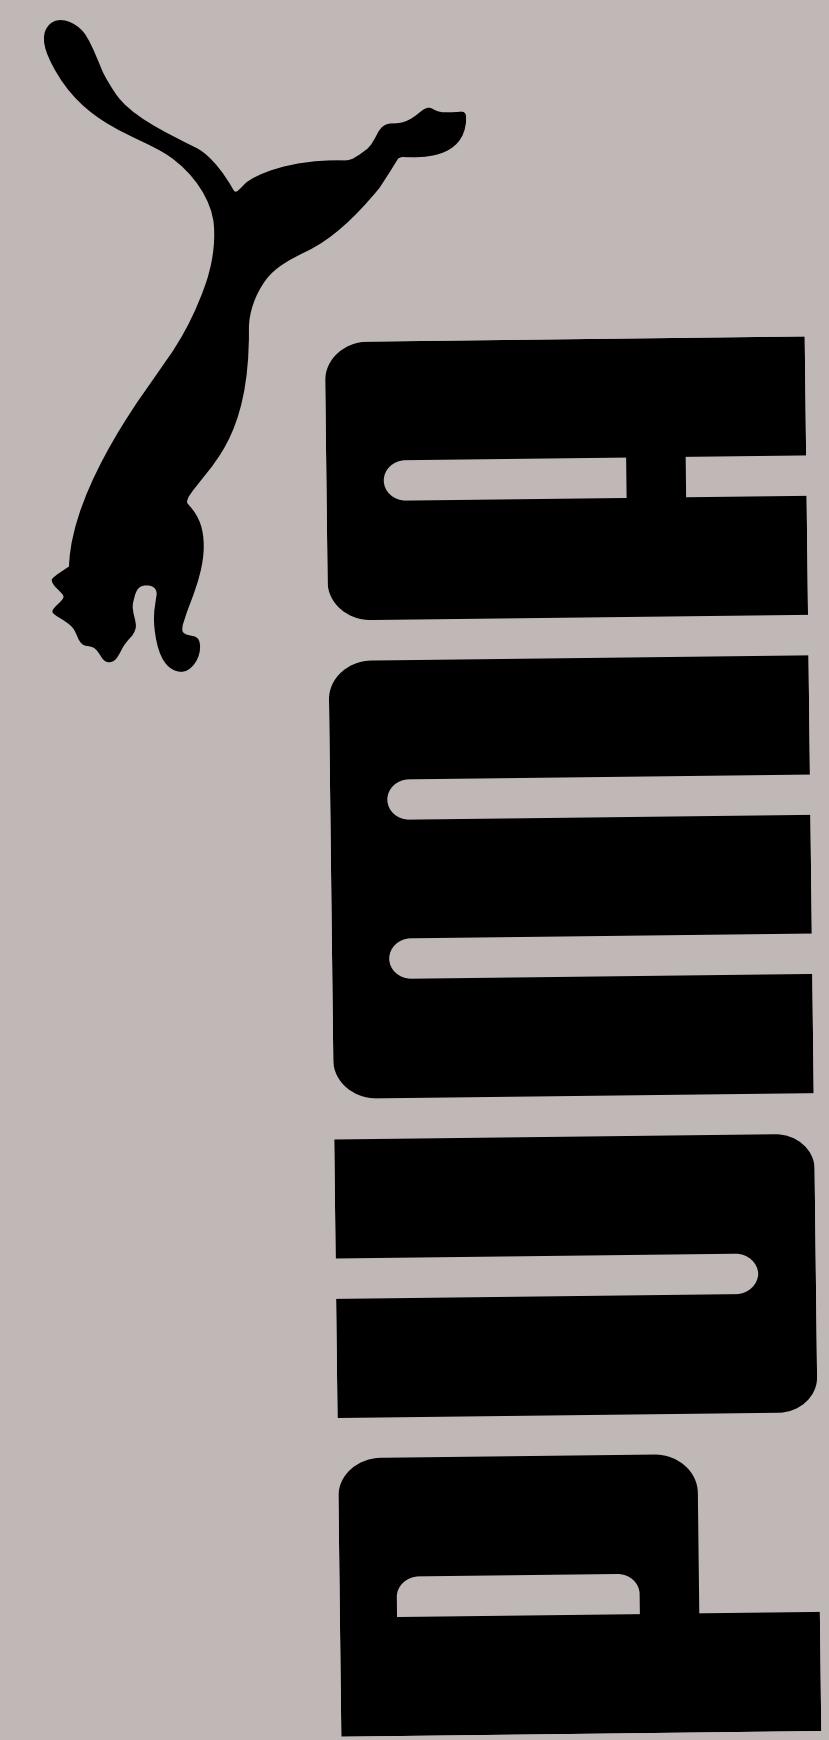

The dimensions of the logo cannot be changed as it will confuse the consumer and weaken the brand.

LOGO DIMENSION
